

Corporate Volunteering Workshop

# Change Lives in 4-hours

Convenient and tech-focused activities

[www.helloinitiative.org.au](http://www.helloinitiative.org.au)

## WHY

At Hello Initiative we provide practical support to some of WA's most vulnerable young people. This includes supplying refurbished mobile phones to young people serving a community order. Providing these mobile phones not only diverts that e-waste from landfill, but also empowers kids to meet their court order requirements and avoid detention.

## WHAT

4-hour corporate volunteering workshop. We will bring mobile phones that need repair before they are supplied to our Mobile Support Program.

## WHO

We will provide 1-2 knowledgeable facilitators for groups of up to 12 volunteers. If you have more than 12 people looking to volunteer, we will book multiple workshops over the week at times that suit your team members.

## WHEN/WHERE

We will travel to your worksite at a time that suits you. We make sure that your entire volunteering experience is hassle-free through efficient logistical arrangements. We also make sure to avoid work schedule disruption with our half-day workshop program.

## The Techiest Corporate Volunteering Workshop in Perth

Engage in hands-on, tech-focused activities that delve into the world of e-waste and empower participants to acquire valuable skills in phone repair. Not only will your team contribute to a greener future by reducing e-waste, but they'll also gain practical knowledge that extends beyond the workshop, empowering them to mend their own mobile phones at home. Experience the blend of community impact and skill enrichment – all within the comfort of your own workspace.
